

COMPANY PROFILE

Cornerstone Systems and
Services SPC

CORPORATE OVERVIEW

Corner Stone Systems & Services is a Systems Integrator focusing on the design, deployment and maintenance of ICT and ELV solutions. We take pride in being one of the fast-growing ELV & ICT Company in the State of Oman having achieved remarkable growth in a short span and contributing significantly to the development of the State.

Corner Stone Systems & Services is delivering technology contracting under many verticals including Supply and installation of IT Equipment's, Network Infrastructure, Structured cabling, Telephony services, Wireless services, CCTV solutions, Access control systems, etc. This unique business model provides a highly technical and well-diversified installation force, which combined, enables us to handle larger and more complicated projects. Much of the labor force is cross-trained under multiple disciplines enabling labor to flow between projects to areas most needed at any given time.

We partner with the ICT Industry's leading manufacturers of proven technologies to deliver high-quality solutions to our clients. Corner Stone Systems & Services understands that Information Technology and Networking are critical to today's security infrastructure, and we ensure our solutions incorporate today's standards.

Beyond its technology Corner Stone Systems & Services boasts a strong team of project managers, technicians, and support personnel available in the industry and promotes an innovative and entrepreneurial culture in order to seamlessly facilitate the completion of any project. In forming a partnership with our client, we gain a unique understanding of our client's specific requirements as they evolve, thereby enabling us to promptly evaluate and adjust existing solutions to meet the changing needs of our clientele.

OUR VISION

"To be one of the most respected Systems Integrator of ELV and ICT solutions in Oman and GCC"

To achieve our vision, our goals are:

- To continue to inspire confidence from our stakeholders by delivering successful and safe projects.
- To continue to provide and develop strong leadership with integrity.
- To constantly strive for continuity of works, taking pride in our aim of delivering all projects safely, on budget and ahead of program, ultimately exceeding client expectation.
- To respect the well-being of our workers and protect the environment, maintaining our 'zero harm' record.
- To recognize and encourage our employees, providing skills development opportunities to help them develop in their careers.

OUR MISSION

Corner Stone Systems & Services is involved in design, deployment and maintenance of ELV and ICT solution works for Commercial / Residential / Industrial Buildings, Hospitals, Site offices, Schools, etc.

CSS is committed to provide customers with the best quality products and services in the above-mentioned fields of operation. Our mission is to ensure total satisfaction of our customers through continual improvement of our services dedicated in achieving and maintaining excellence in all aspects of our activities. Thus, we recognize and accept the responsibility to:

Meet and exceed our clients' expectations the first time and every time. Control the hazards and risks posed by our activities and operations to our employees, clients, visitors and other third parties.

Add value for clients through innovation, foresight, integrity, and aggressive performance; and to serve with character and purpose.

CSS emphasizes on Quality over Quantity as the main objective for all its endeavors and has gained confidence in full trust in the ELV industry for its commitment, achievement with high degree of professional approach with quality requirements.

SOLUTIONS

ITS Infrastructure & Telecommunication Solutions

Corner Stone Systems & Services provides complete range of ITS Infrastructure & communication solutions to a variety of sectors. We design and implement the latest in Information & Communication Technologies. Our custom designs are tailored to suit your business and give you a competitive edge through value-based solutions.

To deliver successful integration of complex systems requires both specialized skills and the right level of experience. Our team consists of highly certified professionals, many with over 15 years of experience in the IT industry.

Strong Communication and network foundation is the key to business agility and competitiveness in the technology-dependent Internet era.

Structured Cabling Solutions

Copper & Fiber Optic Networks

Corner Stone Systems & Services has expertise in providing well-designed, carefully implemented structured cabling systems that meet your data and communications needs. We specialize in the installation of copper network cabling to ensure long term performance, system integrity, and investment protection. Corner Stone Systems & Services' specialists are experienced in carrying out major Fiber Optic network installations with all the detailed planning and resource utilization required for such projects. Having successfully designed and implemented many structured cabling projects in Oman, you can be assured that you would have a very reliable network infrastructure for years to come.

Corner Stone Systems & Services as a certified installer for many of the leading brands like R&M & Ultima etc., we can warranty the projects as per manufacture standards from 15 to 25 years.

We use calibrated and state of the art modern Cabling equipment's from leading manufactures like Fluke, EXFO, Fujikura, etc. We use our trained and certified technicians for splicing, terminations, cable laying etc.

Our installation teams are fully conversant and qualified with the latest installation practices and work to a quality-assured procedure ensuring all installations are carried out to a consistently high standard. Whether you need just one additional outlet or you require thousands installed, we have the knowledge, experience and expertise to ensure your installation is carried out to your specifications and with the same level of service and professionalism regardless of the size of the project or service call.

Corner Stone Systems & Services is having alliance with most of the leading manufacturer of passive networking items. We are certified with Ultima & R&M etc. We can supply any kind of passive cabling products from leading manufactures.

Networking Products

We offer an extensive selection of high-quality network components that form the backbone of modern communication networks. Our comprehensive portfolio includes, but is not limited to:

Routers: Our routers are designed to efficiently direct data packets between networks, ensuring optimal data flow, and enabling reliable connectivity across various locations.

Switches: We provide advanced network switches that facilitate the efficient and secure transfer of data between devices within a local area network (LAN) or wide area network (WAN).

Firewalls: Security is paramount in today's interconnected world. Our robust firewalls protect networks from unauthorized access and cyber threats, safeguarding sensitive data and ensuring privacy.

Modems: Our modems offer high-speed internet access, enabling seamless communication between devices and networks, whether through cable, DSL, or fiber connections.

Wireless Access Points (APs): We offer cutting-edge wireless APs that create reliable and high-speed Wi-Fi networks, catering to both home and enterprise environments.

Power over Ethernet (PoE) Devices: Our PoE devices simplify network installations by delivering both

data and power through a single Ethernet cable, ideal for IP cameras, access points, and other network devices.

We partner with major brands like Huawei & Cisco. We provide complete firewall solutions from Fortinet and Huawei. Our product range includes industrial switches and media converters from Planet and ONV

Expertise and Support:

Our team of skilled network engineers and technicians possesses in-depth knowledge and expertise in designing, implementing, and maintaining complex network infrastructures. We provide comprehensive support throughout the project lifecycle, from initial planning and design to ongoing maintenance and troubleshooting.

Complete DATA Center Infrastructure Solution

IT operations are a crucial aspect of most organizational operations around the world. A data center is a facility used to house computer systems and associated components, such as telecommunications and storage systems. If a system becomes unavailable, company operations may be impaired or stopped completely. A data center must therefore keep high standards for assuring the integrity and functionality of its hosted computer environment. This is accomplished through redundancy of mechanical cooling and power systems serving the data center along with fiber optic cables, environmental controls (e.g., air conditioning, fire suppression) and various security devices.

Corner Stone Systems & Services provides consulting, planning and implementation of DATA centers of any size in different TIER levels. We design cooling / power requirements for DATA center which includes DATA center Cooling Solutions (Rittal), UPS systems (Liebert, APC, Tripplite, Effekta), Remote monitoring systems (IMS 4000), FM200 Fire systems, Security (Access control and CCTV monitoring), Generator, and other design concerns of DATA center.

CSS specialized in the infrastructure installation of datacenter including raised/access flooring system, fire rated ceilings, fire rated doors, fire rated claddings, complete electrical, technology and mechanical installations.

UPS Solution

A UPS is typically used to protect hardware such as computers, data centers, telecommunication equipment or other electrical equipment where an unexpected power disruption could cause injuries, fatalities, serious business disruption or data loss.

CSS Business Systems provide Supply and installation of variety of UPS models and sizes. We provide both single phase and 3 phase solutions. We are specialized in design of parallel redundancy solutions and other mission critical requirements.

Some of other brands we deal with are Liebert, MGE/APC, Eaton, Effekta etc.

Video/Voice Conferencing Solutions

Videoconferencing (VC) is the conduct of a videoconference by a set of telecommunication technologies which allow two or more locations to communicate by simultaneous two-way video and audio transmissions. With powerful computing processors and video compression techniques, videoconferencing has made significant inroads in business, education, medicine and media. By reducing the need to travel, without flying, driving or catching trains, to bring people together the technology also contributes to reductions in carbon emissions, thereby helping to reduce global warming.

Corner Stone Systems & Services provides Cisco, Avaya, Grandstream and Yealink video/audio conferencing solution.

CCTV and Security Surveillance

CSS has extensive experience in designing and installation of different CCTV security surveillance solutions. By carefully assessing our clients' requirements, we design, install and maintain cost-effective security systems which achieve and exceed our clients' expectations.

CSS has successfully implemented tens of large and small CCTV systems including analog and IP-based solutions from vendors such as Axis, Pelco, Dahua, HIK Vision, UNV and Hanwa etc.

SMATV and IPTV

CSS provides turnkey, centralized, professional Satellite SMATV and IPTV systems using top-of-the-line equipment from industry leading manufactures such as Televes, Eurostar and Global.

Construction Time-Lapse Cameras

Time lapse construction camera lets you know what's happening on your jobsite 24/7, even when you're not there. It's easy to use because everything comes in one complete package. All you need is a device with Internet access, and you'll start doing things you never thought possible as Increase efficiency, Reduce travel costs, Improve communications, Enhance project management, Increase client transparency, Provide a firewall against warranty claims, insurance issues and contract disputes, Produce time-lapse movies for marketing and public relations.

Corner Stone Systems & Services provide Time lapse solution of Hikvision and UNV.

Access Control, Time Attendance and Security Systems

Physical access control is a matter of who, where, and when. An access control system determines who is allowed to enter or exit, where they are allowed to enter or exit, and when they are allowed to enter or exit.

CSS designs and implements different access control systems based on solutions from multiple vendors. These can include standalone card readers up to a complicated networked solutions consisting of tens of card and biometric readers, door controllers, turnstiles, road blockers and sensors. Whether your organization is large or small, the importance of managing access to your premises cannot be over-emphasized. Therefore, at CSS we design our solutions based on the understanding that every organization or company operates differently, and each has individual needs and requirements.

A time and attendance system enables an employer to have full control of all employees working hours. It helps control labor costs by reducing over-payments, eliminating manual processes.

CSS provide time attendance systems from Hikvision, HID and TDSI among other vendors.

Public Addressing System (PA System)

A public address system is an electronic sound amplification and distribution system with microphone, amplifier, loudspeakers, mixing console, etc. PA systems with many speakers are widely used to make announcements in public, institutional and commercial buildings and locations.

Corner Stone Systems & Services provide Public addressing solutions from TOA.

Computer Hardware, Software and Peripherals.

Computers, Servers, Storage, Printers, Scanners: Corner Stone Systems & Services provide sales and support of Computer hardware from multiple corporate vendors - DELL, HP, Lenovo, etc.

Corner Stone Systems & Services specialized in providing design and configurations of Servers (DELL & HP) as per client's requirements. We supply Printers, Scanners, Projectors and all other IT equipment hardware as per client request.

Computer data storage is a technology consisting of computer components and recording media used to retain digital data. It is a core function and fundamental component of computers. CSS provides storage solutions (SAN, NAS, etc.) from NetApp, QNAP & HP.

We take your business ideas and transform them into reality!

Extended Warranty, Service and Ongoing Maintenance Agreements

An extended warranty is coverage for electrical or mechanical breakdown. It may or may not cover peripheral items, wear and tear, damage by computer viruses, normal maintenance, accidental damage, or any consequential loss. The indemnity is to cover the cost of repair and may include replacement if deemed uneconomic to repair.

Corner Stone Systems & Services provide extended warranty support and ongoing service and maintenance contracts as per client's requirements.

CSS Provides different service plans (Basic, Advances and Plus) considering the client's support demands which include 24/7 support within 4 hours response time. We can tailor maintenance options to fit your requirements for all infrastructure products and services.

We offer a wide variety of options designed to help keep your infrastructure up and running.

Help Desk, Technical Support & Outsourcing Services

CSS, a help desk provider intended to provide the customer with information and support related to the client's requirements. We troubleshoot problems or provide guidance about daily infrastructure problems such as network administration, component installation, configuration, system imaging, and advanced configuration of computers, electronic equipment, or software.

CSS Provide outsourcing services for reducing cost and improving quality for our clients. By outsourcing to us; we help our clients to perform well on their core competencies, from which cost is reduced and products stay in high quality. We help to mitigate shortage of skill or expertise in the areas where they want to outsource.

PARTNERSHIP FOR QUALITY

Working together to create value for our customers – that’s the fundamental aim of Corner Stone Systems & Services.

With our existing network of high-quality partners, we provide full-service support to our mutual customers as they optimize their IT processes. Together, we deliver professional business services and focused IT that maximizes business performance.

We value the opportunity to serve you and are committed to assist you for your technology demands. We are constantly seeking to improve the services we provide. Our experienced and responsive staff, along with constant innovations in technology, plan, design, and state-of-the-art reporting, ensures that our clients will be more satisfied.

Thanking you and looking forward to be of service.
